

Deputy Chief of Party - MPHD

Jhpiego seeks a Deputy Chief of Party (COP) to provide vision, leadership and direction to ensure the strategic, programmatic, technical, and financial integrity for a first of its kind USAID MOMENTUM Private Health Delivery Project in Indonesia. This \$20 million project seeks to support the Government of Indonesia to enhance the engagement and effectiveness of the private healthcare sector as a sustainable approach to providing quality maternal and newborn health (MNH) services and contributing to reduced rates of maternal and newborn deaths. The project will operate over a 4.5 year period. The successful candidate will have direct experience working within, or collaborating closely with, private sector health facilities and providers in urban, peri-urban and rural settings in Indonesia.

The DCOP will work closely with, and provide complementary experience and skills to the Chief of Party, and will work closely with program implementation teams to ensure that resources are applied appropriately (e.g. human, financial and material). This includes supervising program management staff, overseeing annual work planning, leading the design, implementation, and reporting of project activities, representing MCGL to donors and partners, and all other aspects of program management. In the absence of the Chief of Party, the DCOP may be required to undertake the responsibilities of that position on a temporary basis.

Responsibilities

- Provide programmatic leadership for, and oversee, under direction of the Chief of Party, the strategic planning of activities in support of the program goals and objectives, including the determination of program priorities and appropriate technical initiatives
- Coordinate the work of all team members with their designated counterparts within USAID, the Ministry of Health, as well as partners and other key stakeholders in Indonesia such as NGOs, to ensure effective technical assistance and the smooth implementation of activities
- In collaboration with COP, coordinate closely with MCGL leadership / counterparts to ensure synergies
- In collaboration with COP, manage and maintain good working relationships with subs / implementing partners
- Advise national and subnational counterparts on technical issues and participate in relevant advisory and/or working groups with counterparts and partner institutions
- Represent Jhpiego and the program in public and professional circles through meetings, conferences, and presentations
- In close collaboration with the COP, coordinate and monitor all human, financial and material resources of the program to ensure successful implementation
- Develop and modify as necessary the technical workplans and budget; review workplans and spending against budget monthly with the Chief of Party
- Guide the analysis, synthesis and reporting of program outputs and results in close collaboration with the Director of Research and Evaluation
- Mentor, support, supervise and manage a team of highly qualified staff and align their efforts in concert with program goals to ensure rapid and sustainable results

- Provide guidance and capacity building activities in collaboration with key staff specialists to subgrantees; coordinate activities with other agencies
- Write and/or review technical components of reports, materials and publications related to the program and its development
- Ensure resources for program implementation are available
- Work with finance and project staff to develop and track project budgets
- Work closely with Jhpiego home office staff to ensure effective, timely and coordinated project implementation
- Ensure compliance with USAID policies

Qualifications

- Masters or other advanced degree in public health, medical doctor, health administration, international health or a related field
- Previous experience serving as COP/project director or DCOP or senior level management
- 7+ years' experience successfully managing large, multi-partner, multi-year international health sector development projects that have implemented successful activities in health systems strengthening and MNH
- Demonstrated experience and knowledge in establishing project systems and overseeing project start-up and close-out
- Previous experience working in Indonesia with strong understanding of local health system and MNH
- Experience hiring and supervising personnel and ensuring they acquire the necessary training and skills to meet evolving project needs
- Excellent diplomacy skills and a proven ability to establish and maintain interpersonal and professional relationships with USAID, host-country counterparts and representatives from other key stakeholders such as NGOs, CSOs, and the private sector
- In-depth knowledge of USAID projects, regulations, compliance and reporting requirements
- Demonstrated outstanding leadership, strategic thinking, organizational, team-building, and representational skills
- Expertise in research to practice—identifying and adapting best practices to specific project contexts
- Excellent skills in facilitation, team building, and coordination
- Excellent verbal, written interpersonal and presentation skills in English and Bahasa
- Ability to coach, mentor and develop technical capacity in regional and national projects and technical staff
- Ability to travel nationally and internationally up to 30%

Interested applicants should send application with subject & CV with 3 referees to the following email address: IndonesiaHumanResources@jhpigo.org. Indicate how your education and experience qualifies you for the position. Only those selected for interview will be contacted.
