Pendahuluan

Preliminary

Era globalisasi menimbulkan perubahan terhadap aktivitas pekerjaan yang berdampak pada munculnya potensi kerugian baru yang berkaitan dengan bahaya dan risiko Keselamatan dan Kesehatan Kerja (K3). Oleh karena itu upaya manajemen risiko K3 menjadi sangat penting untuk diterapkan di berbagai sektor industri, baik formal atau informal.

Selain itu, persaingan bisnis global, tuntutan konsumen akan kualitas produk atau jasa dan regulasi nasional maupun internasional, mendorong setiap perusahaan untuk menerapkan K3 di semua aktivitasnya.

Pusat Kajian dan Terapan Keselamatan dan Kesehatan Kerja Fakultas Kesehatan Masyarakat Universitas Indonesia (PKTK3 FKM UI) menjadi mitra yang tepat untuk setiap kebutuhan perusahaan dalam memulai, mengevaluasi dan memperbaiki system K3 yang ada di perusahaan. Berbagai aktivitas telah dilakukan oleh PKTK3 di berbagai sektor sejak Tahun 1996, baik sektor Migas, Manufaktur, Pertambangan, Instansi Pemerintah, Rumah Sakit, Instansi Pendidikan, dan lain-lain. Kegiatan PKTK3 meliputi Training/ Pelatihan, Konsultasi dan Penelitian.

Globalization leads to change in work activities that impact on emerging of the potential new losses related to hazards and risks of Occupational Safety and Health (OSH). Therefore, OHS risk management becomes very important to be applied in various industrial sectors, either formal or informal.

In addition, global business competition, consumer demand for quality products or services and national and international regulations have encouraged every company to apply OHS management system in their activities.

Center for Assessment and Occupational Safety and Health (PKTK3 FKM UI) becomes the right partner for every company that needs to develop, evaluate and improve OHS management system. Various activities have been undertaken by PKTK3 in various sectors since 1996, such as petroleum and gas industries, manufacturing, mining, government institutions, hospitals, educational institutions, and many more. PKTK3 services are mainly focusing on Training, Consultation and Research.

Profil

Profile

PKTK3 FKM UI ssebagai lembaga yang ada di lingkungan Fakultas Kesehatan Masyarakat Universitas Indonesia sesuai dengan salah satu visi dan misinya yaitu melaksanakan penelitian dan pengabdian masyarakat dengan melaksanakan kegiatan pelayanan penelitian, pengkajian dan pelatihan bidang K3, baik di tingkat nasional dan taraf internasional dengan memberikan prioritas utama pada mutu pelayanan yang diberikan baik pada aspek ilmiah, efektivitas dan efisiensi.

***PKTK3 FKM UI** as an institution in the Faculty of Public Health Universitas Indonesia in accordance with one of its vision and mission is to carry out research and community service by conducting research service, assessment and training of OSH field, both at national level and international level by giving priority on the quality of services provided both on scientific aspects, effectiveness and efficiency.*

Visi

Vision

PKTK3 FKM UI menjadi pusat pengkajian dan terapan melalui penelitian, pelatihan dan konsultasi yang dikenal luas dan menjadi rujukan pada tingkat regional, nasional dan internasional di dalam bidang K3.

*Through research, research, training and consulting, **PKTK3 FKM UI** will be a center of excellence, an OSH assessment and an application center that is well respected at the regional, national and international level.*

Misi

Mission

1. Terciptanya metode-metode, program serta penggunaan teknologi yang efisien dan efektif untuk menunjang proses kerja di industri melalui penelitian, pelatihan dan konsultasi.
2. Terciptanya hubungan kemitraan yang saling menguntungkan antara industri/perusahaan dan perguruan tinggi.
3. Terjalannya kerjasama antara sumber daya K3 di dalam dan luar negeri.
4. Membantu pihak industri/perusahaan swasta dan pemerintah dalam menangani masalah-masalah K3.
5. Memasyarakatkan K3 dikalangan masyarakat luas khususnya kalangan industri dan perusahaan.

1. *Effectively and efficiently create methods, programs, and technologies that support work processes and business through research, training, and consulting.*
2. *Create a mutually beneficial partnerships between industry/enterprises and universities.*
3. *Establish cooperation between Occupational Health and Safety human resources in Indonesia and abroad.*
4. *Help the industry/private companies and governments to handle Occupational Safety and Health problems.*
5. *Socialize Occupational Safety and Health among the wider community, especially among industries and companies.*

Fasilitas

Facility

1. Class room
2. Auditorium
3. Laboratory (OHS, Environment Health, Nutrition)
4. Laboratory Universitas Indonesia
5. Advanced laboratory facilities including OHS Laboratory, Ergonomic Laboratory, Chemistry Laboratory, Physics Laboratory, Engineering Laboratory

Aktifitas Activity

PKTK3 FKM UI merupakan lembaga kajian yang menawarkan jasa pelatihan, konsultasi kepada dunia kerja & industri di Indonesia, serta penelitian untuk pengembangan keilmuan K3. Dalam memberikan jasa konsultasi, PKTK3 UI berpegang kepada Keilmuan K3, serta Kajian dan Studi yang telah dilakukan.

Jasa Konsultasi PKTK3 FKM UI mampu memberikan solusi praktis kepada industry dan dunia kerja terhadap permasalahan K3 yang dihadapi oleh industri dan dunia kerja.

Dalam pengembangan keilmuan K3, PKTK3 bekerjasama dengan institusi pendidikan & pemerintah melalui program hibah baik dari internal UI (DPRM UI) maupun luar UI (Dikti,dll).

Solusi praktis yang dapat ditawarkan antara lain :

1. Survey & Assessment K3
2. Training & Workshop K3
3. Pengembangan Program & Monitoring K3
4. Dan lain-lain bersifat komprehensif dan digambarkan pada diagram disamping.

PKTK3 FKM UI is a center of assessment and application that offers training services, consultation to working industry in Indonesia, as well as research for the development of OHS science. In providing consulting services, PKTK3 FKM UI has referred to OHS methods and theories, as well as the implementation of researches and assessments that have been done.

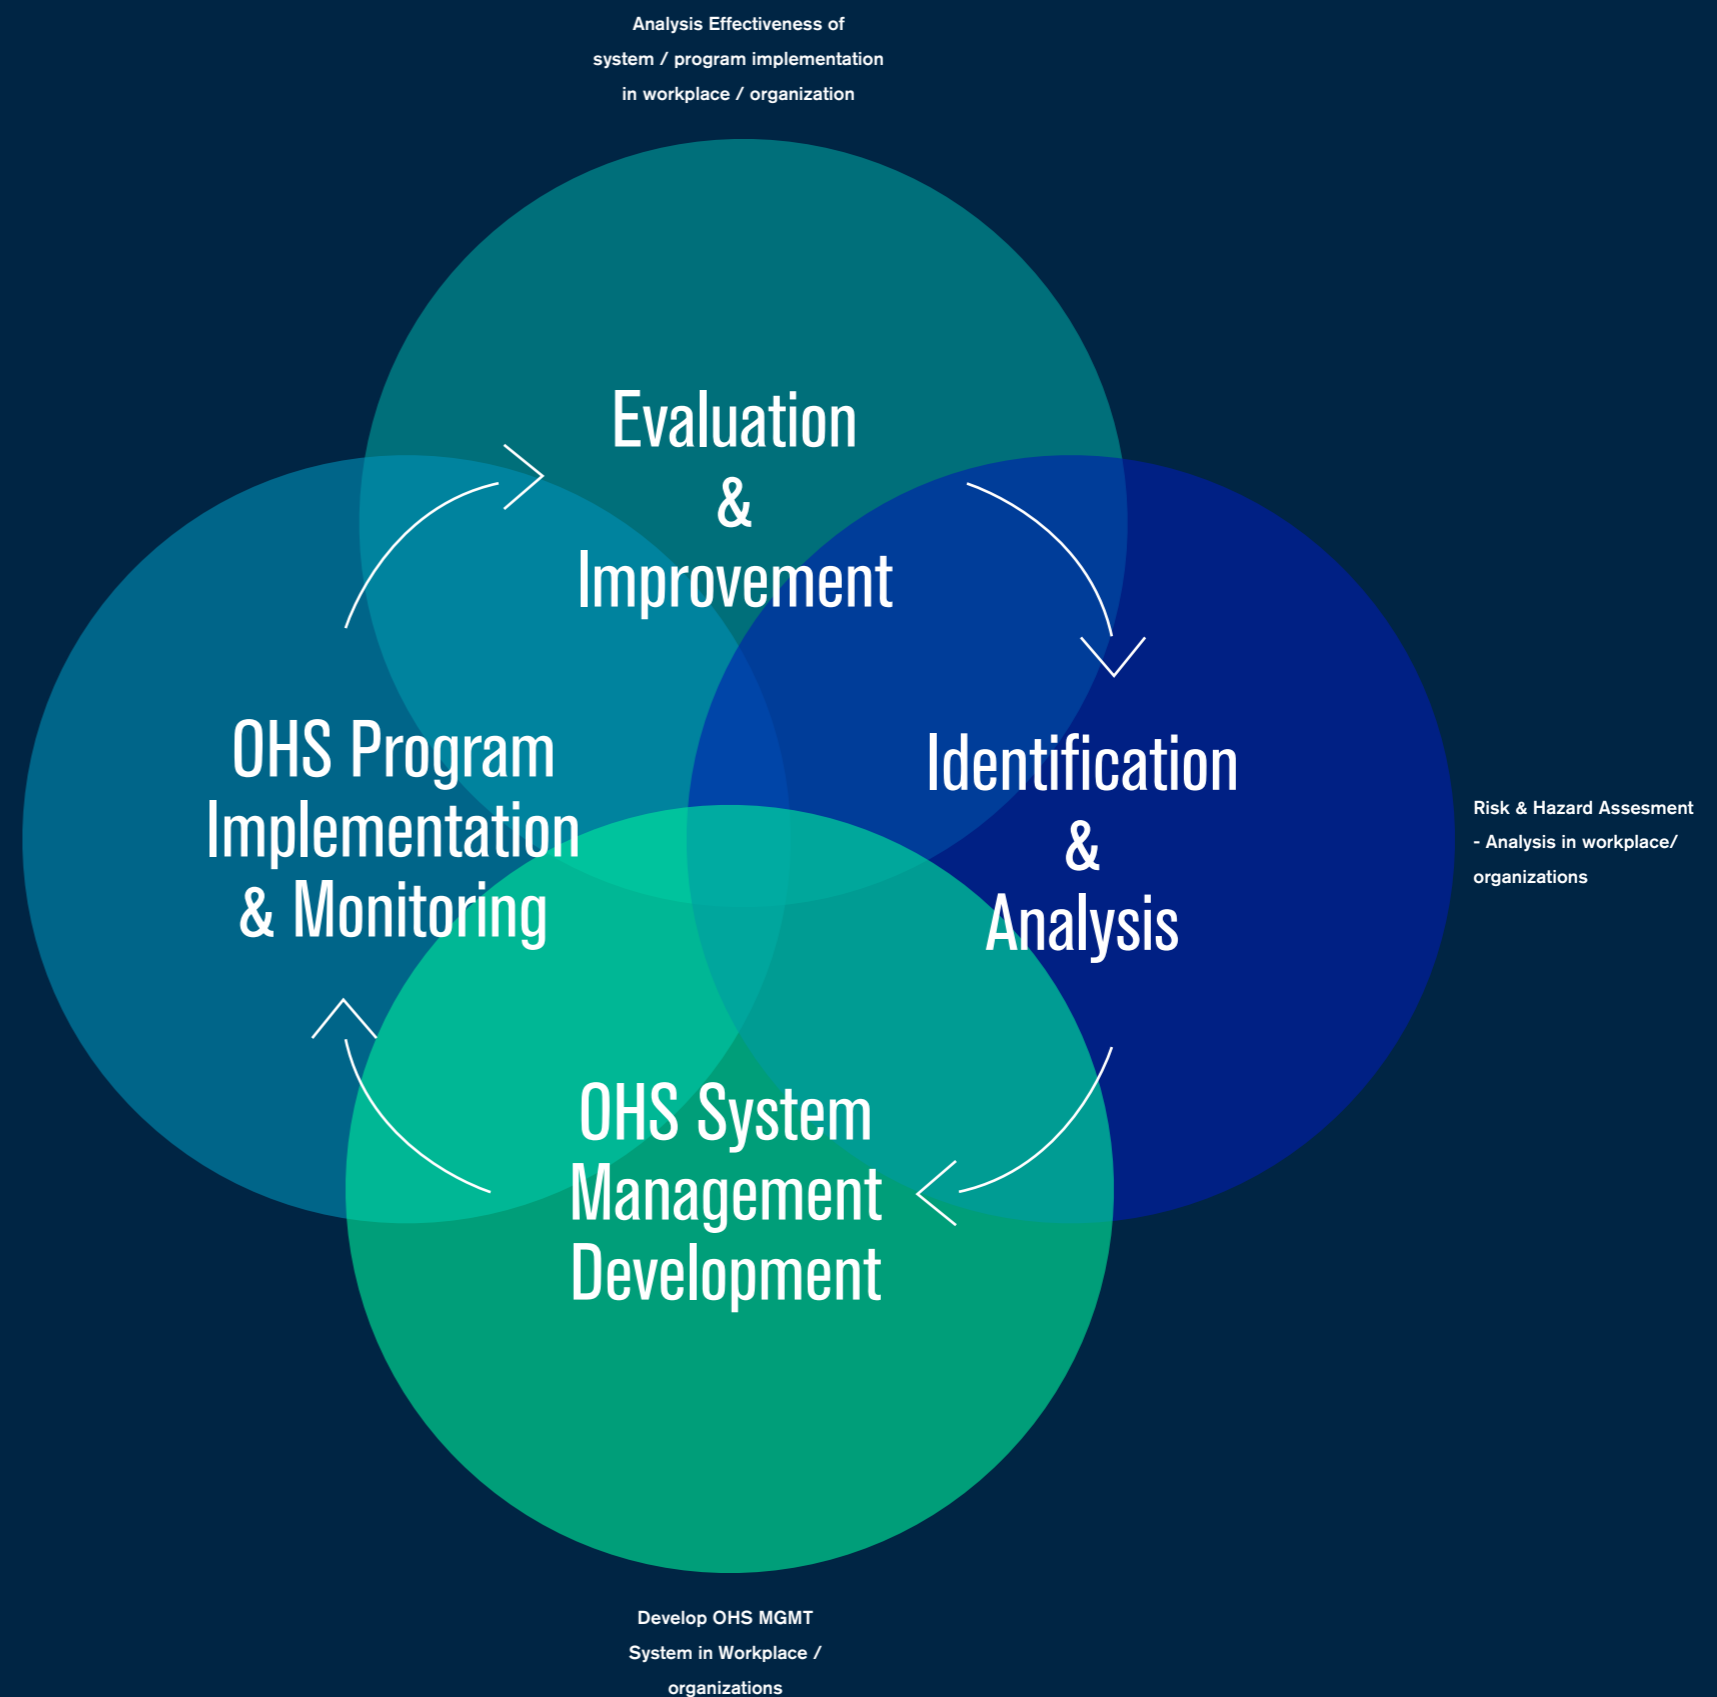

Consulting Services of PKTK3 FKM UI should be able to provide practical solutions to the industry. Hence, the services provides applicable recommendations to solve many issues faced by the industries

In the development of OHS science, PKTK3 cooperates with educational institutions & government through grant programs both from UI (DPRM UI) and third parties (Dikti, etc).

Practical solutions that can be offered include:

1. Survey & Assessment K3
2. Training & Workshop K3
3. Program Development and K3 Monitoring
4. And others are comprehensive and described in the diagram on the right.
