

**PUSKA FKM UI**  
**Center for Family Welfare**

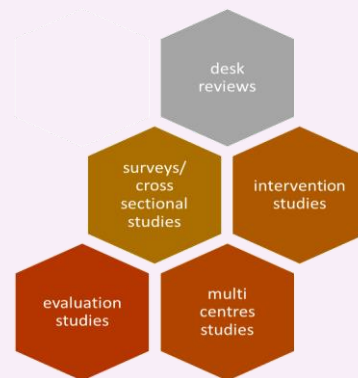

### PUSKA FKM UI

Pusat Penelitian Keluarga Sejahtera  
Fakultas Kesehatan Masyarakat  
Universitas Indonesia

### Center for Family Welfare

was established in 1987. Previously was known as Center for Child Survival (*Pusat Kelangsungan Hidup Anak – Universitas Indonesia*). In 1995, to accommodate the development of the center's coverage areas, the Center became *Pusat Penelitian Keluarga Sejahtera - Fakultas Kesehatan Masyarakat Universitas Indonesia (PUSKA FKM UI)* or Center for Family Welfare (CFW) Faculty of Public Health University of Indonesia.

**The center** has vast experience in conducting various types and methods of research in quantitative and qualitative researches at many levels, such as national, population and facility/provider level in many areas in Indonesia. We are designed to assist advancement of human resources in Indonesia, and as apparent support to the implementation of developmental program carried out by the Government of Indonesia, Private Sectors, and Non-Governmental Organization, especially on Child and Maternal Health and Nutrition, Family Planning, and other Public Health areas.

### Vision

To be an excellence center for education, research, and public health science services in national and International level.

### Mission

- ⇒ To develop knowledge and technology in public health through various research activities and international studies
- ⇒ To organize community service activities through various activities, such as consultation, advocacies, promotion, and community empowerment
- ⇒ To establish networking & partnership with various institutions in the field of education, industry, profession, government, and other organizations in National and International levels.

## Our Team

### Chair

Trisari Anggondowati, SKM, MEpid, Phd

Prof. Dr. Anhari Achadi, SKM, Sc.D

Dr. Endang L. Achadi, MPH, Dr. PH

### Researchers

dr. Fitri Nandiaty

Riyanti Akhir, SKM, MSM

Tika Rianty, SKM

Kamaluddin Latief, SKM, MEpid

Dra. Oktarinda, MSi

Asep Sunarya, S.Ag

### Management

Drs. Yustinus Agus Setiadji

Kujang Yusra, SE

# Activities

## Research & Evaluation

is the main activity of PUSKA FKM UI. We have rigorous experiences in conducting social research/evaluation in at hospital/facility and community levels. Tools, approaches or methodologies used in those studies are used as models for subsequent studies or others to repeat similar studies in different setting or for different purposes, such as probability-based assessment tool for determining maternal death causes, C-survey to estimate immunization coverage, real time observation of care deliveries at hospitals, use of communication means (phone, e-mail, fax, mail) to collect data in national survey, and time and motion studies in health centres.

## Our research topics

## Activities

- \* Implementation Research to Accelerate Multiple Micronutrient Supplementation during Pregnancy in Indonesia – The MMS Study, collaborating partner: JHU, Vitamin Angels and Jalin Foundation, 2021 – present
- \* Every Mother and Newborn Counts (EMNC) Study (USAID JALIN, 2018-2019)
- \* Banten II Study (JHPEIGO, 2017-2018)
- \* Evaluation Program SMSBunda for Post-partum Women (JHPEIGO, 2016)
- \* Evaluation Program SMSBunda for Pregnant Women (JHPEIGO, 2015)
- \* A Study of The Implementation of Jampersal Policy in Indonesia (World Bank , 2013)
- \* External Evaluation of Sister Hospital Program Provinsi Nusa Tenggara Timur (AIPMNH, 2013)
- \* REVIEW ON THE IMPLEMENTATION OF TCTP ON MCH HANDBOOK PHASE 1 (JICA , 2013)

**EMNC Study, Banten II Study, & Impact Research** provide evidence about maternal and neonatal mortality using MADE IN-MADE FOR (MIMF) method for maternal deaths and NODE IN-NODE FOR (NINF) method for neonatal deaths.

- \* Operations Research on Mobile Monitoring and Tracking of Maternal-Child Health (m-PWS) System (Mercy Corp, 2012-2014)
- \* Process Evaluation of Quality Improvement (QI) Intervention (SBM-R) on the Quality of Maternal, Newborn and Child Health (MNCH) Services (MCHIP-USAID, 2012)
- \* Study on Self Reliance on MCH Handbook in Indonesia, a nationwide study covered all provinces and districts/municipalities, and case study and community survey in 5 selected provinces. (JICA in collaboration with MOH, 2010-2011)
- \* MMR study in three Districts in West java Province, using Impact RAPID tool, 2011 in collaboration with the three District Health Offices and District Hospitals (The World Bank , 2011)
- \* Maternal and Neonatal Health Care System Strengthening in West Java Province (The World Bank, 2011)
- \* Study on the Quality and Access to Perinatal Health Care in Hospitals in three Districts in East Java, 2009-2010. In collaboration with researchers from the London School of Hygiene and Tropical Medicine (LSHTM); Johns Snow Inc, USA; George Washington University; dan University of Cairo (HSP/USAID project, 2009-2010)
- \* Impact research (Initiative for Maternal Mortality Program Assessment). Under Impact project, the center has conducted over 25 studies in the period of 2004-2006 of data collection (report and international publications have finished in 2008). (Bill and Melinda Gates Foundation, DFFID, USAID, and EC; 2004-2008)

# Activities

- \* End-line Survey and Baseline Endline Data Analysis for MYCNSIA Project in Indonesia. (UNICEF, 2014)
- \* Baseline Survey Firm Behavior Change Communication And mHealth Solution For PKH (TNP2K, 2014)
- \* Data Validation-Impact Evaluation of Cooking Oil Fortification with Vitamin A in Indonesia (Indonesian Nutrition Foundation for Food Fortification, 2012)
- \* Qualitative Research on Mothers and Children Food Consumption Behavior in Jakarta and Bantul District, Indonesia (PT. Sari Husada, Indonesia, 2012)
- \* Baseline Survey for Child Nutrition Status in Wamena, Sikka and Klaten Districts of Indonesia: interviewed more than 2000 respondents. In Collaboration with SEAMEO RECFON. (UNICEF, 2011-2012)
- \* Sensory Test of Ready to Use Food (RUF) for Mothers and Children 6-24 months in TTS district, NTT province, 2011 (World Food Programme (WFP), 2011)
- \* Rapid Assessment for Laboratory Equipment to Assess Fortified Food, in 6 provinces, through NICE (Nutrition Improvement through Community Empowerment) project, 2010-2011 (MOH and ADB, 2010-2011)
- \* Baseline survey on Community Managed Nutrition Program (CMNP) in Timor Tengah Utara (TTU) and Timor Tengah Selatan (TTS) Districts, 2010 (PLAN Indonesia, 2010)
- \* Empowerment of Elementary School Community on the KAP on Food Balance, in Serang district, Banten province (Ministry of Education, GOI, 2009-2011)
- \* Validation Study on the Consumers' Acceptability and Effectiveness of Vitamin A Fortified Oil in Makassar City. 2008-2009 (Ministry of Health (MOH) and ADB, 2008-2009)
- \* Mid evaluation survey of Nutrition Rehabilitation Program (NRP) Among children of under-fives, pregnant women and nursing mothers at poor communities in Jakarta, Tangerang district, Tangerang city, Bogor district and Bogor City, 2005 (World Food Programme, 2005)

# Activities

## HAPIE

The objective of the study is to evaluate the assessment on Hospital Accreditation Process Impact Evaluation to the quality services and hospital performance.

- ◇ Applying Science to Strengthen and Improve System (ASSIST) (URC Co. LLC, 2014-2016)
- ◇ Hospital Accreditation Process Impact Evaluation (HAPIE) in Indonesia (URC, 2012-2016)
- ◇ Baseline Survey of Health Services under NTT & NTB Sector Support (HSS) Program, 2007 (A collaboration between Ministry of Health - GTZ Health Projects)
- ◇ Rapid Assessment of the Oil Subsidy funded Health Service Program, Government of Indonesia, 2006 (The World Bank, 2006)

# Activities

## Tobacco Control

Writing up Policy Papers on Tobacco Control in Indonesia in collaboration with Tobacco Control Support Center (TCSC), (The Indonesian Public Health Association, 2011)

## Health Information System

Review of District Health Information System (DHIS) in Deli Serdang (North Sumatra) and Sumedang (West Java) Districts (HSP-USAID, 2008)

## HIV/AIDS

Assessment for Jakarta STOP AIDS Activities, Central Jakarta, 2009. In collaboration with Yayasan Unilever Indonesia, Yayasan Cinta Anak Bangsa, KPAP/K, Dinas Pendidikan DKI Jakarta, Sudinkes Jakarta Pusat (Yayasan Unilever Indonesia, 2009)

## Reproductive Health

- OM MenCare+ Program Evaluation Study (Rutgers WPF Indonesia, 2016)
- External Evaluation of MenCare+ (Rutgers WPF Indonesia, 2016)
- MenCare Program Evaluation Study (Rutgers WPF Indonesia, 2013)
