About Us

P3M UI was formed by UI Rector's Decree Number:1706/SK/R/UI/2014 on 16 July 2014 on the Appointment of the Chairman of the Academic Business Unit at the School of Public Health, University of Indonesia.

Education is the backbone of national development to actualize a new Indonesia. In line with national education reform that puts forward the central theme "Education for All and All for Education", education is placed as a top priority in the development of the Indonesian nation and state.

With the implementation of regional autonomy and the autonomy of state universities, particularly the University of Indonesia (UI), it is necessary to make efforts to improve the quality of education services to the community, either through certified regular education, training, applied research and other activities as a form of participation of the scientific community in national development. Therefore, efforts are needed to strengthen the interaction between the world of higher education and the government, industry, social organizations, and society.

Under the auspices of the University of Indonesia, the Center for Education and Public Services (P3M) comes into responding these challenges and opportunities. P3M in carrying out the activities synergizes with various faculties, departments, centers, and laboratories at UI so that it functions in integrating various scientific disciplines (multi-discipline approach).

By providing services to the community, government, private sector/industry, NGOs, and individuals both related to education and training as well as applied research, P3M always focuses on the best service. Education and research services carried out by P3M, are specifically aimed at education that is the skill and professional in nature as well as more applicable research.

Services to the business fields and industries are directed at strengthening the development of national industries that are competitive and have global competitiveness. Accordingly, services to government agencies are carried out in order to support the realization of good governance.

Our Vision

An integrated education and service center in providing and presenting a variety of superior, quality, and competitive educational and non-educational services for the community, academia, government institutions, the private sector, and social organizations.

Our Mission

- 1) Actualizing the achievement of interdisciplinary integration through education and public services.
- 2) Establishing strategic partnerships with the University of Indonesia (UI) and non-UI academicians, government, industry, NGOs, and donor agencies.
- 3) Organizing educational activities, services, and applicable research to the community through various forms of educational activities, certified training, consultancy, and empowerment of community activities throughout Indonesia.

Our Goals

- 1) Generating applied research and service research that is utilized in society, government, and industry.
- 2) Collaborating with industry, government, social, and community organizations in education, training, and applied research.
- 3) Improving the purpose of service, public service, and empowerment.
